

# PADDLING LOG BOOK

Use the following pages to record trips, competitions= events and other canoeing experiences. Whilst these records are not essential for the 1 to 3 star awards, it will help record the necessary journeys. A proper maintained log book is a requirement for the 4 and 5 star awards, and coaching awards.

To ensure your entries are correct, it is advisable that they are written immediately after the event. If you are not sure about the details about any particular river trip, then ask the person running the trip or look at one of the websites or guidebooks.

There are also pages for you to record courses you have attended and qualifications you have gained.
